

I am writing to give you an update on how our Green School, which The Nineveh Charitable Trust has supported, is progressing, and a general update on The Therapy Garden.

The Green School students had another busy year, and detailed below are the July 2017 end of year outcomes for the students:

Number of students obtained qualification:

- 4 internal certificates

- 7 continuing studies

- 6 achieved City & Guilds (5 short courses who are continuing next year and 1 x diploma that has been completed)

Students returning, going on to college and finding work:

- 3 going onto further education

- 3 returning as adult clients – Grow to work project.

- 11 expected to continue with us.

We currently have 15 students attending Green School and some more potentially still to join. Attached are some photographs of the students at work.

Below is a link which provides a colourful update about The Therapy Garden.

If you would like any further information or photographs please do not hesitate to contact me, and you are of course welcome to visit us anytime.

Thank you for your support.

Kind regards

Rachel
