Dear Trustees

This letter is to thank you for the funding you have provided which is now fully functional and the children love using the space as you can see from the enclosed images.

Thanks to your financial assistance and lots of hard work fundraising we have managed to create an outside area will provide a safe space where children can role play and be creative, or learn independently. It will help us to develop a learning environment where there is a flow between indoor and outdoor learning, placing exploration and play at the centre of our learning.

In the role play area: We have constructed a multi use role play area, which can be adapted to create a range of themes with an outdoor shop and theatre to aid learning and development away from traditional textbooks.

In the Outdoor classroom and theatre: We have provided an opportunity for teacher led learning outside the classroom. This space can also be used for drama or music performance with the addition of a wooden stage area.

The floor space is amazing it's a protected space for outdoor play during inclement weather constructed of rubber and durable replacing the current worn tarmac, which in places the previous tarmac floor was dangerous to use and some children had previously had accidents so we couldn't use it.

The amazing Investigation areas: Covered areas dedicated to investigating curriculum related topics, such as sorting tables, topic draws etc.

So thank you for what you have helped us achieve because from small dreams big things happen. In fact, a simple thank you doesn't seem to do justice what the Neneveh Trust has done for us.

Yours thankfully,

Kay Winstone
