Trailer for Abbey Court School Rural Activity Centre

Finally after a long lead-in time our brand new stock trailer has arrived at the farm. Hitched behind the new farm truck it looks a very impressive sight!

The trailer is a flexible unit and will cater for various needs and wants around the school farm. It's big enough to supply transport for any of the animals we currently have, and for those we plan at this stage to be getting over the next few months.

We have already been able to remove the upper floor panels and internal partitions and collect a full load of timber which has been donated for farm use. This is something we would have had to refuse without the trailer being on site to utilise as we have.

The quality of this Ifor Williams trailer will see years of service at the farm and we are very grateful to receive it.

Thanks to everybody at The Nineveh Charitable Trust for supporting us!
