

## Thank you from West Suffolk Hive

Thank you for your funding! It has made an enormous difference and has allowed The Hive to survive the various lockdowns, and to open up with a full schedule of activities!

Due to funding received, we are currently offering our community garden, education area and forest space to toddlers and their parents, home ed families, to the SEND schools in Bury, local primary schools and to volunteers and local families. We are so grateful to be able to offer these sessions, and would just like to say a huge thank you for your support and belief in our project!
