

FUNDING RECEIVED FROM THE NINEVEH CHARITABLE TRUST

In February 2021 Landmarks Specialist College received a second donation from The Nineveh Charitable Trust for our farm provision – Apperknowle Farm in Dronfield where we provide a real-life working and training environment for young people with learning difficulties and disabilities. We are continuing with our plans for expansion at the farm, including raising our own livestock and producing fruit and vegetables for use in the College Bistro and our pub The Archer serving the public. Plans are underway to introduce rare breeds of livestock and poultry local to the area, together with fruit trees and “at risk” trees. Learners are engaged in every step of the process giving them the skills necessary for employment in the industry.

Fencing around the 7-acre site was in a poor state of repair when we acquired the farm; with this second grant from Nineveh we have been able to replace fencing across the site.

Landmarks is extremely grateful to The Nineveh Trust for their continued support, allowing us to continue to expand the farm provision for the benefit of our learners.
