Tell us about the project

- **Has the project been successful and well received by the beneficiaries?**

The project hit a rocky start as it was due to commence in March 2020. This, however, was put to a stop by the pandemic. During the times where there were fewer restrictions, we were able to concentrate on delivery of the project. We consider the project successful, as we had children and parents engaged in gardening activities, and our garden is now hosting bees and butterflies as we had hoped it would. We have a wonderful Bee & Butterfly B&B with a rich and varied mini-beast environment living in it. We have purchased sensory plants such as heathers, herbs, lavender, and others such as Hebe, Stipa, Azalea and Rhododendron in order to support the natural environment. We also had a visit from the Llanybydder Primary School's Eco-Council, who helped us with our plans for the garden, and their suggestions were simply marvellous!

Are you satisfied with the outcome, or, with hindsight, would some modifications have been appropriate?

We wish we could have been more 'in-depth', and obviously spent more time on the project, however this was out of our control. As the project is one that we are keen to keep going, we hope that we can continue this interest that the families have developed and progress further.

- Was funding for this project made available from any other sources?

No

Feedback about us

- How did you find our own process of selection and payment?

Very clear and prompt.

- Would you welcome a visit by our Trustees?

Yes, we definitely would, when restrictions ease.

- Have you any other comments?

Please find photographs of the project throughout the lifetime of the grant, as these illustrate much better than words! We would like to thank you for this opportunity to develop our children's understanding of the wider world, through funding the initial costs, and would also like to take time to thank you for your kind understanding of our inability to complete the project in the specified time-frame during the pandemic.
