Dear Sally

Further to the trust's very kind grant of £3,000, I am delighted to provide this update on how the funds have helped our Community in West Norwood, London.

Your support was directed towards a **new garden shed** and its environmentally friendly foundations (a recycled plastic grid filled with gravel) costing a total of £3,382. Some local fundraising has been ongoing from which we found the balance needed.

We've also engaged the specialist consultant **Thrive**, closely associated with the RHS to consult with our Community members and advise how to make the most of the garden at a cost of £750. To ensure our learning disabled members can assist we have also purchased specialist tools and equipment at a cost of £400.

Below are images of the new shed (left) and garden at our Community House, Gothic Lodge:

Should you or any of the trustees wish to visit our Community (Covid-19 restrictions permitting), it would be a pleasure to welcome you there. Meanwhile, thank you for your support and may I take this opportunity to wish you a very safe and happy Christmas.

Yours sincerely

Fiona Beasley
Trusts & Fundraising Manager
